RECENT PROJECTS

GASC Blood Donor Bridge

10/2025

Description: Co-developed a role-based blood donation management platform as part of a 2-member team, taking the lead on the overall architecture, workflow, and key features. Built dedicated **donor**, **requester**, and **moderator** modules with a focus on secure data handling and a smooth user experience. The project is now in its final stages and **set to go live soon** as part of the college website.
